

# ° climate day

## fill The Hill!

On October 24th, the ground will shake as people around the world unite in a global call for fair, ambitious, and binding global climate agreements.

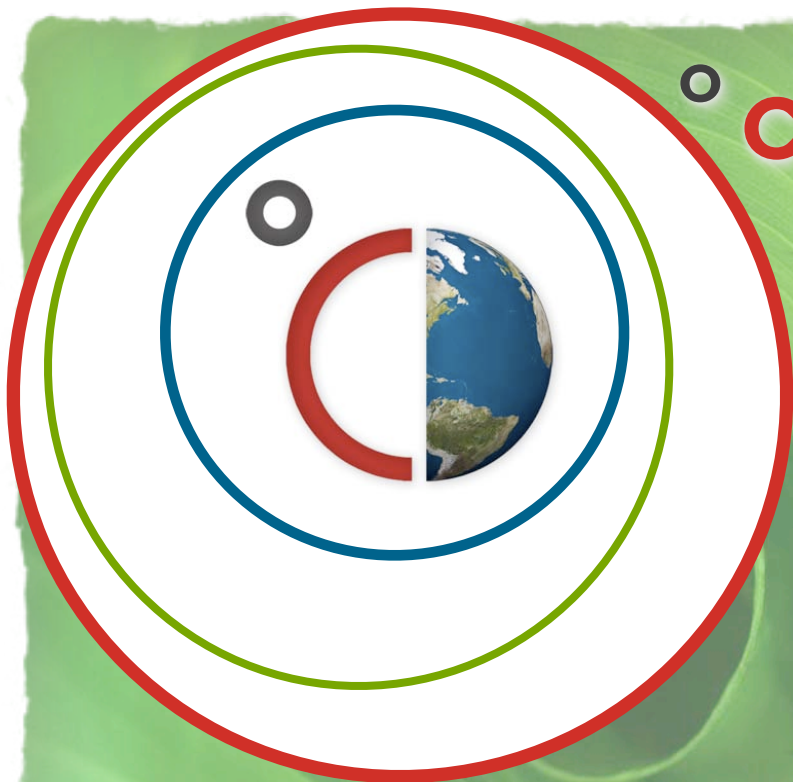

In Ottawa, thousands of us will converge on our Parliament to show our elected leaders that they can do what is right in the face of the climate crisis. Stand among us and **help make climate change history!**

save the date!

**24 October ! Parliament Hill**

Dear Minister Prentice,

I need not explain the gravity of the climate crisis to you - the threat is evident. However, Canada's federal response to this danger has been inadequate to date. Therefore, I send you this message to show my support for (and insistence on):

- **Mitigation** - science-based GHG reduction targets
- **Adaptation** - equitable climate action
- **Transition to a green economy** - green jobs, renewable energy, conservation and efficiency

Please reconsider Canada's response to the climate crisis. To do otherwise will be deeply regrettable for all.
