Welcome to Fourmilab Switzerland

Last update: 5 November 2016

This site is developed and maintained by John Walker, founder of [Autodesk, Inc.](#) and co-author of AutoCAD. A variety of documents, images, software for various machines, and interactive Web resources are available here; click on entries in the frame to the left to display a table of contents for that topic. Items which span more than one category are listed in all.

A comprehensive (and large) list of all items on the site is available as a frame- and graphics-free [Site Map](#).

Except for a few clearly-marked exceptions, all the material on this site is in the public domain and may be used in any manner without permission, restriction, attribution, or compensation. [Back links](#) to this site are welcome.
