

University of Toronto Beekeeping Education Enthusiast Society

To the associates and partners of UofT BEES,

The student executive team of the University of Toronto Beekeeping Enthusiast and Education Society would like to inform you of some personnel changes in UofT BEES. Pieter Basedow will no longer be associated with UofT BEES.

Pieter's removal from the position of chief apiarist is due to disagreements in management and more recently his involvement with an **undisclosed incident, which required intervention by the campus police**. His behavior cannot be overlooked and we hope you understand our action.

Regards,

The executive team of UofT BEES
